

Bird Count Walkthrough

January 20, 2023

Helen reports...

I had a very leisurely wander this morning. Along the Ramaroa track, into the bush (where I hadn't been for ages) then through the Ramaroa wetlands and up to the Dell. Back through the Kohekohe forest.

I counted 18 different species but not a huge number of birds.

There were quite a number of young birds noted ([thrush](#) and [blackbird](#)) and several [pukeko](#) chicks scooting around.

It was a pleasant day - not windy (northerly) and a very conveniently cloudy sky to reduce the heat of the last few days.

There was plenty of [tui](#) action, flying at great speed through the bush, often in pairs.

Once again I admired the mown tracks.

The orchard is looking great with fruit adorning the branches - a photographic opportunity!

Where have all the [Paradise shelducks](#) gone?

And another pleasant day at Whareroa was had.

Happy New Year!
Cheers, Helen

The Search for the Whareroa Weka

Some months ago, there had been some reports of potential possible weka sightings in Whareroa Farm, but no definitive confirmatory proof.

If you see one, do let us know (whareroa.guardians@gmail.com) with as many details as possible (time, place, behaviour) and most ideally with photos and videos.

Background info from the wonderful nzbirdsonline.org.nz here [Weka | New Zealand Birds Online \(nzbirdsonline.org.nz\)](http://nzbirdsonline.org.nz)

.....

Data Table – some analysis

A bit of data crunching from the attached table (43 walkthrough visits up to and including 20.1.23)

Usually between 12 and 20 species have been sighted during most walk-throughs. September 12, 2020, was a big day with 23 species, on May 28, 2020, May 23, 2022 & July 14, 2022 only 12 were recorded.

Helen records on average, a total number of around 80 birds per walkthrough (the range is 37 to 130).

- On January 20, 2023: 18 species & 72 birds recorded (seen or heard).
- 3 species have been recorded during every walk-through: Blackbird, Tui & Fantail (Grey Warblers have not been seen once during separate visits, otherwise they would be in this exclusive group too)
- 12 species were sighted/heard during at least 65% (28 or more) of visits: Bellbird, Blackbird, Chaffinch, Eastern Rosella, Fantail, Grey Warbler, Magpie, Paradise Shelduck, Pukeko, Silvereye, Thrush & Tui
- Most recorded / Top 5 in alphabetical order: Blackbird (343), Chaffinch (318), Fantail (274), Silvereyes (309), Tui (343)
- Least sighted in this series of reports (in alphabetical order, how often sighted, total number): Dunnock (3, 3), Falcon (2, 3), Mallard (4, 7), Redpoll (3, 7), Rock Pigeon (0, 0), Shining Cuckoo (6, 15), White Faced Heron (2, 3)
